**CALL FOR
REGISTRATION**

NATIONAL SCIENCE FOUNDATION SCHOOL SCIENCE SOCIETY NETWORK (NSF-SSSN)

Empowering Young Minds Through Science, Technology and Innovation

The **National Science Foundation (NSF)** invites schools across Sri Lanka to register their **School Science Societies** with the **NSF School Science Society Network (NSF-SSSN)**.

The NSF School Science Society Network aims to strengthen science education in schools by providing opportunities for students and teachers to engage in science, technology, innovation, research, and STEM-related activities at regional and national levels.

Benefits of Registration

- Participate in NSF-organized science programmes, workshops, competitions, and exhibitions
- Receive information on NSF educational initiatives and special events
- Network with School Science Societies across the country
- Access opportunities for student capacity building in science, technology and innovation
- Represent their schools in selected national and international science activities
- Receive recognition as members of the NSF School Science Society Network
- Opportunities for obtaining financial support

Eligibility

Applications are invited from:

- All Government Schools and Private Schools approved by the Ministry of Education

How to Apply

- Application forms can be:
