Future Scientists Research Grants (FSRG)

Application Submission General Guidelines

Applicants are required to submit the following documents when applying for the **Future Scientists Research Grants (FSRG)** programme. The application will be considered complete only if all required documents are submitted before the specified deadline.

1. Completed Application Form

- Complete all sections of the application form accurately and clearly.
- Obtain all required signatures and official stamps from the relevant authorities.
- Submit:
    - A **scanned PDF copy** of the fully completed application form with all signatures and official stamps.
    - The **original Word version** of the completed application form

2. Short Video

- Submit a short video introducing the team and providing an overview of the proposed project.
- The video should be authentic, engaging, and clearly communicate the project's purpose and potential impact.

Required Attachments

The following three files must be attached with the application submission:

1. Scanned PDF of the completed application form (with all required signatures and official stamps)
2. Original Word version of the completed application form
3. Project Introduction Short Video

Important :	Incomplete applications or applications submitted without any of the above documents may not be considered for evaluation.
